TT284 - 4" extension.

106
1/2" pillar sink tap, with raised nozzle.

Traditional taps in four styles

GA with china lever handles (GFC)

Regent with china lever handles (RFC)

1890's (GA)

Regent (R)

Mastercraft (MC)

Barber Wilsons taps are available in five styles:

- The **1890s (GA)** range have the original exposed top works.
- The **Regent (R)** range with 'easy-clean' shrouded head parts.
- The **Mastercraft (MC)** range is based on our original 1930s Art Deco theme of hexagonal capstans, shrouds and spouts.
- The **GFC** prefix denotes the 1890s GA style but with lever handles.
- **RFC** denotes the R style but with lever handles.

Cross-headed styles are available with either traditional compression internal mechanisms with washers, or modern 3/4 turn ceramic discs (suitable for high pressure applications only <1 bar). If your preference is for ceramic discs please add the suffix CD to the part number when ordering. For example a GA 2134 with ceramic discs is a GCD 2134. Not available with Mastercraft.
