

## CLEANING GUIDE

All WETSTYLE products are manufactured with WETMAR™; an ultra-smooth, non-porous material that helps keep grime and calcium deposits in check.

WETMAR™ is ultra-easy to clean: after each use, simply wipe with a soft cloth to remove any surface dirt.

For standard cleaning of both glossy and matte finishes, we recommend using widely available cleaning products such as Mr. Clean, Fantastik, CIF, etc. The matte finish may occasionally require a mildly abrasive product.

**Never use** petroleum-based products when cleaning, i.e. paint thinners or other solvents, as they may damage the WETMAR™ surface. (Note: Personal hygiene products and cosmetics will NOT damage the surface.)

### Standard Cleaning

#### WETMAR™, glossy finish:

Wipe surface with a soft cloth after each use.

Use a mild cleaning product such as Mr. Clean, Fantastik, CIF, etc.

Do not use abrasive products or cream cleansers.

#### WETMAR™, matte finish:

Wipe surface with a soft cloth after each use.

Use a mild cleaning product such as Mr. Clean, Fantastik, CIF, etc.

For more difficult stains, use a mildly abrasive cream cleanser such as Soft Scrub, Comet Soft Cleanser, Cream with Bleach or CIF.

### Scratched or Damaged Surfaces

To repair scratched or damaged surfaces, sand the area using 600-, 800- and 1200-grit sandpaper: begin with the lower number (coarser) grit followed with each higher number (finer) grit in ascending order. Finish by polishing the surface using a cloth and white polishing compound for automobiles.

### Repairs

For more extensive repairs, send a photograph of your WETSTYLE product to our Customer Service Department ([service@wetstyle.ca](mailto:service@wetstyle.ca)), who will inform you as to the most appropriate methods to use.
